NEW YORK STATE SPORTS WRITERS ASSOCIATION-NEWSLETTER... '79 HIGH SCHOOL INDOOR TRACK & FIELD LEADERS

TRACK SHORTS...by Larry Byrne...The EASTERN STATES had an ACCUTRACK that was "photo-timing" every running event, including heats, semis, etc., (w/ a few malfunctions, whereby only a hand-timed clocking was available)...in addition to a full crew of official timers. And therein lies the cause of some performance discrepancies. The Hand Times were being announced over the P. A. as the "official" clockings...Yet...the event-by-event summaries being passed onto the Press Area, contained BOTH the Fully-Automatic (Accutrack), and hand times, hence the confusion as to what each performers "official" time was.

But...there need not have been any problem, as you will note on the Lists below...whenever FULLY-AUTOMATIC timing is in use, it is the ONLY acceptable clocking that can be reported. The times recorded by the officials using hand-held timing devices are useful as back-up times (in the event the auto-timer malfunctions) or for "official" splits and/or lap times.

Therefore, in keeping with IAAF, AAU, NCAA, IC4A, National Federation, etc., regulations in this matter of Fully-Automatic Timing, and in view of the policy of listing top performances by Track and Field News, EASTERN TRACK, etc. we will list only the F. A. T. performance when available, and totally disregard any hand-held time recorded for the same performance. Since it has been established that F. A. T. is somewhat slower than respective hand-time a factor of .24 for short (straightaway/one turn) races, and .14 for one-lap or longer events is to be subtracted from F. A. T. clockings to obtain the equivalent "hand-times". On these lists, we have shown the Actual F. A. T. performance in hundredths, and ranked them in their proper order of merit.

On this, our 4th Indoor List of the '79 season (which is being hand delivered to you at the State Meet, and will NOT appear in the NYSSWA NEWSLETTER) we have listed the TOP-25 (as reported to this correspondent) in each standard Track and Field event conducted in the Indoor State Intersectional Meet. You will probably note a lack of performances from Sections 1, 4, 5, and 6...and this is due to no one in those areas reporting marks to me during the course of the season. So, please, if your athlete's name deserves to appear on these lists, send the results...with all of the full data that is shown hereon...to me at 161 Swan Lane, Levittown, N. Y. 11756...or call the marks in, evenings 7 - 10 p.m. at 516-731-8057...and now, the TOP-25, w/ event-by-event picks

ALLEN was the only NY'er in the Easterns 300 final, where he finished 4th (32.1) behind the 30.50 (A.T.) National Record performance of Carlton Young (Central, Phila., Pa.). LOVETT's 31.92 in finishing 2nd to ALLEN in ht-III, just missed making the final by .01. The ALLEN-LOVETT re-match in the SI 300 should be the feature of that event, w/ GORBEA, MITCHELL, PRICE, FITZGERALD, D. CAMPBELL & WHITEHEAD likely finalists.

(5 tied at 1:16.5)

+ = Fully-Automatic Timing (.14 is the factor)..

PRESTON, defending SI champ, is red-hot, winning the PSAL in 1:13.3 2-days before his fine ES win. But, watch out for WESTMAN who looked impressive winning his Section of the ES. Hopefully, the SI seeding committee has had the wisdom to place Jim into the top-6, based on this ES performance. However, let's not overlook BERNARD, COOPER and MEJIA all of whom could score his in this event.

None of the 5 NY'ers who were in the Millrose Mile ran that event at the ES...PEARSON, DRADDY and WILLIG took 1-2-3 in the 1,000 (Willig from Sect II), while HERZOG and DYE were anchoring their respective DMR's...and...of these 5, only WILLIG will run in the SI mile, where he is the favorite over EMERY, FLYNN, BRADSHAW, DELAUNEY, BARONE, LUTZ, PENN (Farm'dale) & AVRUTICK (Harr).
